WORK EXPERIENCE

Service Desk Analyst | 2023-2024

Business Connexion

- My responsibilities included providing timely and effective response to the retail department's IT user queries.
- Provided telephonic support, troubleshooting technical issues, and assisting retail customers resolve them

Data Engineering Intern | 2022-2023

Business Connexion

- Led a group of Explore-AI interns in an ETL data anonymization project at BCX under the Telkom group.
- The project increased data pipeline's validity and security and ensured that the pipeline is compliant with the regulations stipulated by the POPI legislation.

Student Software Engineer | 2021-2021

Sibanye-Sillwater

- I was part of a team that built an application that efficiently categorised precious metal samples at different stages of the mining process.
